Keeping Pets with the Families Who Love Them

WELCOME TO PAW PRINT VILLAGE

More Than a Veterinary Clinic.
A Community Built
Around Compassion.

Every pet deserves access to exceptional veterinary care, and every family deserves the opportunity to keep the pets they love healthy and by their side.

Founded in 2012, The Bridge Clinic was created to bridge the gap between quality veterinary medicine and affordability. What began as one woman's determination to help abandoned animals has grown into one of the region's leading nonprofit veterinary organizations.

Our founder, Michele Miller, was inspired to act after witnessing countless abandoned cats during the 2008 foreclosure crisis. Together with a dedicated team of volunteers, she established Rescue Purrfect, a no-kill feline rescue, and The Bridge Clinic with one shared mission:

"To bridge the gap by providing quality, full-service veterinary care that enriches our community and keeps pets with the families who love them."

Today, our 10-acre Bensalem campus—Paw Print Village—is home to a growing network of organizations working together to improve the lives of animals and the people who care for them.

Paw Print Village Includes:

- The Bridge Clinic - Affordable, full-service nonprofit veterinary care
- Rescue Purrfect - No-kill feline rescue and adoption center
- Village Grounds - Community café
- Purrfect Picks - Thrift store supporting rescue efforts
- Bark Park - Community dog park
- The Salon at the Bridge - Professional pet grooming
- Events at the Village - Community Space for rent
- Orthopedic Suite - Sterile surgery environment

Together, these programs create a unique model where every service supports our mission of keeping pets healthy, families together, and our community stronger.
